

# The CCSCI Charitable Fund & Scholarship Program—

Cancer Care Specialists of Central Illinois, S.C., created **The CCSCI Charitable Fund** to enhance community-based cancer awareness and education programs throughout Central Illinois.

Our purpose is to build a substantial charitable fund to generate grants that we will direct each year. The fund will be a permanent, perpetual source of grants, as well as a recipient of fundraising, donations, and bequests from patients, families, and other persons or organizations desiring to enhance cancer awareness, education and treatment in Central Illinois.

**T**he **CCSCI Charitable Fund Scholarship** provides oncology/hematology education development opportunities to (1) healthcare professionals, including nurses, radiation therapists, laboratory technicians, and pharmacists, who provide oncology/hematology-related services in Central Illinois, and (2) individuals, including students, interested in pursuing oncology/hematology-related careers.

Cancer Care Specialists of Central Illinois, S.C.
